

Good Afternoon,

Per the last Open COA meeting and resolution approved by the board, please note that the GUEST parking throughout the community will specifically be for GUESTS?VENDORS only. Please do not park your cars in guest spaces which will be marked very soon. These spaces can be found in clusters throughout mostly the townhome areas. We appreciate your efforts to ensure our guests/vendors have the proper parking available and that residents are utilizing their driveways/garages for parking.

Additionally- cars are not to be parked on the street specifically where it states NO parking on roadways (ie. Broom/Cunningham Dr.). This is a safety issue as well as a violation of the town. Management will attempt to try and warn residents if we notice this occurring however the town will ticket for this moving forward.

Thank you for your attention to this matter.
