

The outdoor pool will re-open tomorrow, August 12th at 11am for regular use. The issue with our repair was completed successfully and the timeframe between now and tomorrow morning to re-open will be to balance the chemicals in order for the pool to be used safely.

The front gate on the visitor side is damaged and will remain open until it is assessed tomorrow and repaired next week. Please ensure to advise guests/residents and moving vehicles to drive through the gate areas SLOWLY at all times. The reason for so many issues lately with the gates is because they continue to be hit by vehicles.

I appreciate your cooperation.
