

We are seeking volunteers to join the Architecture and Grounds and the HOA Facilities Committees.

The HOA Facilities Committee is responsible for the oversight of all common area infrastructure including the clubhouse, pools, amenities, gate house and security. They will play a key role in transition to ensure the developer fulfills their commitments to the community.

The Architecture and Grounds Committee reviews all modification requests to ensure they meet community guidelines. They also are responsible for oversight of the grounds maintenance vendors including landscaping, snow removal, ponds and irrigation. The committee meets every two weeks.

All residents are eligible to participate on either committee.

Those interested are asked to complete an application and return to Management. The application can be found on our website here:
