to me

Dear Resident

It has come to our attention that there has been soliciting going on- door to door- in the community of Del Webb Florham Park. This is NOT allowed in this community nor is it allowed per the Borough of Florham Park at any location residential or business in Florham Park. If you receive a knock on your door or a phone call trying to sell something please hang up/close the door and call the police. Solicitors are a nuisance to the community and are simply not allowed to do this.

\*Please note\* the HOA takes care of the pest control on the outside of the community entirely. This includes lawn care pesticide and regular pest control for bugs etc. There would be no reason why a person door to door should be selling a treatment for the exterior- nor should any homeowner purchase it out of pocket.

**As a homeowner you are responsible for the interior treatment of your home for pests at your own discretion however we encourage you to do your research on the pest company you choose and make sure they are legit licensed and insured for your own safety.**

I am happy to let you know also that the front gate has been completely repaired. Thank you for your patience while we worked through this.
